

# Natural Numbers Worksheet

Thomas R. Cameron

August 27, 2025

## 1 Exercises

- I. Write the number 4 as a set.
- II. Use mathematical induction to prove that  $7^n - 4^n$  is a multiple of 3 for all  $n \in \mathbb{N}$ .
- III. Use the well-ordering property of the natural numbers to prove the principle of mathematical induction.
